Please follow these simple steps to complete the setup on Hostinger. I have already initiated the process, and you just need to confirm these selections:

Email : drjeandor@gmail.com

Password : WFwdT2NkK@093

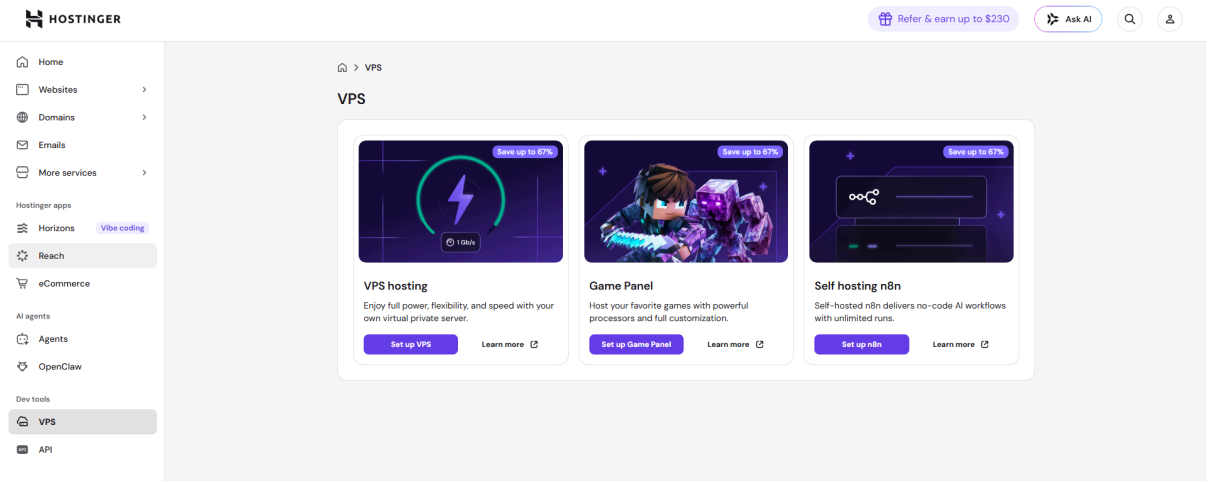

Step 1: Domain Selection

- **Action:** Go to the **Domains** section and click on **"Get new domain"**.
- **Note:** Search for our project domain and complete the purchase.

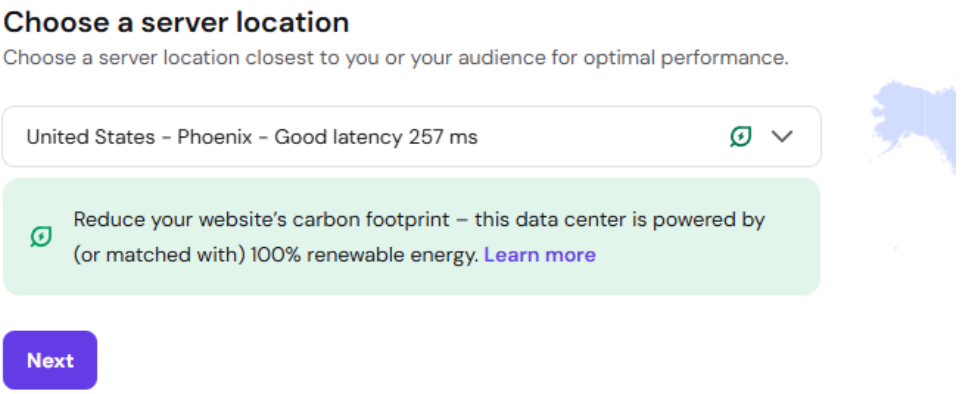

VPS Setup

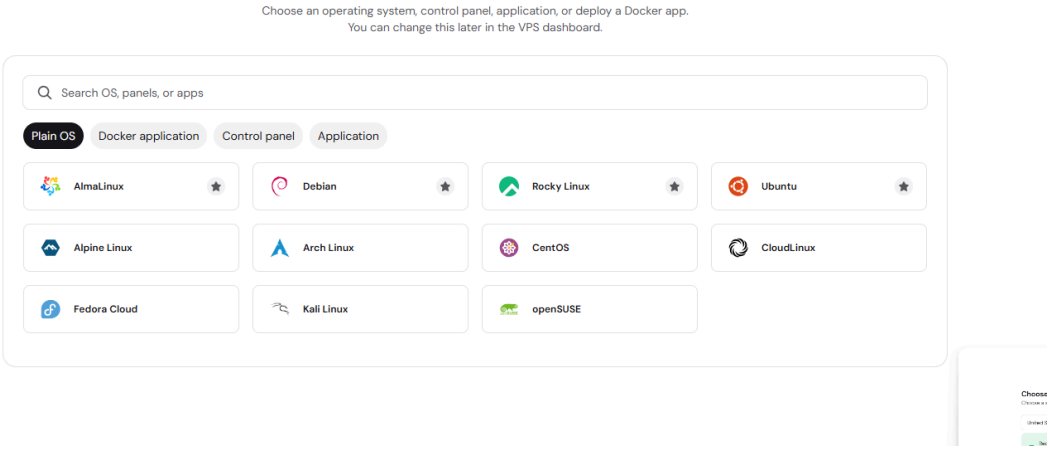

Step 1: Setup VPS: Click on the "Set up VPS" button to start the configuration.

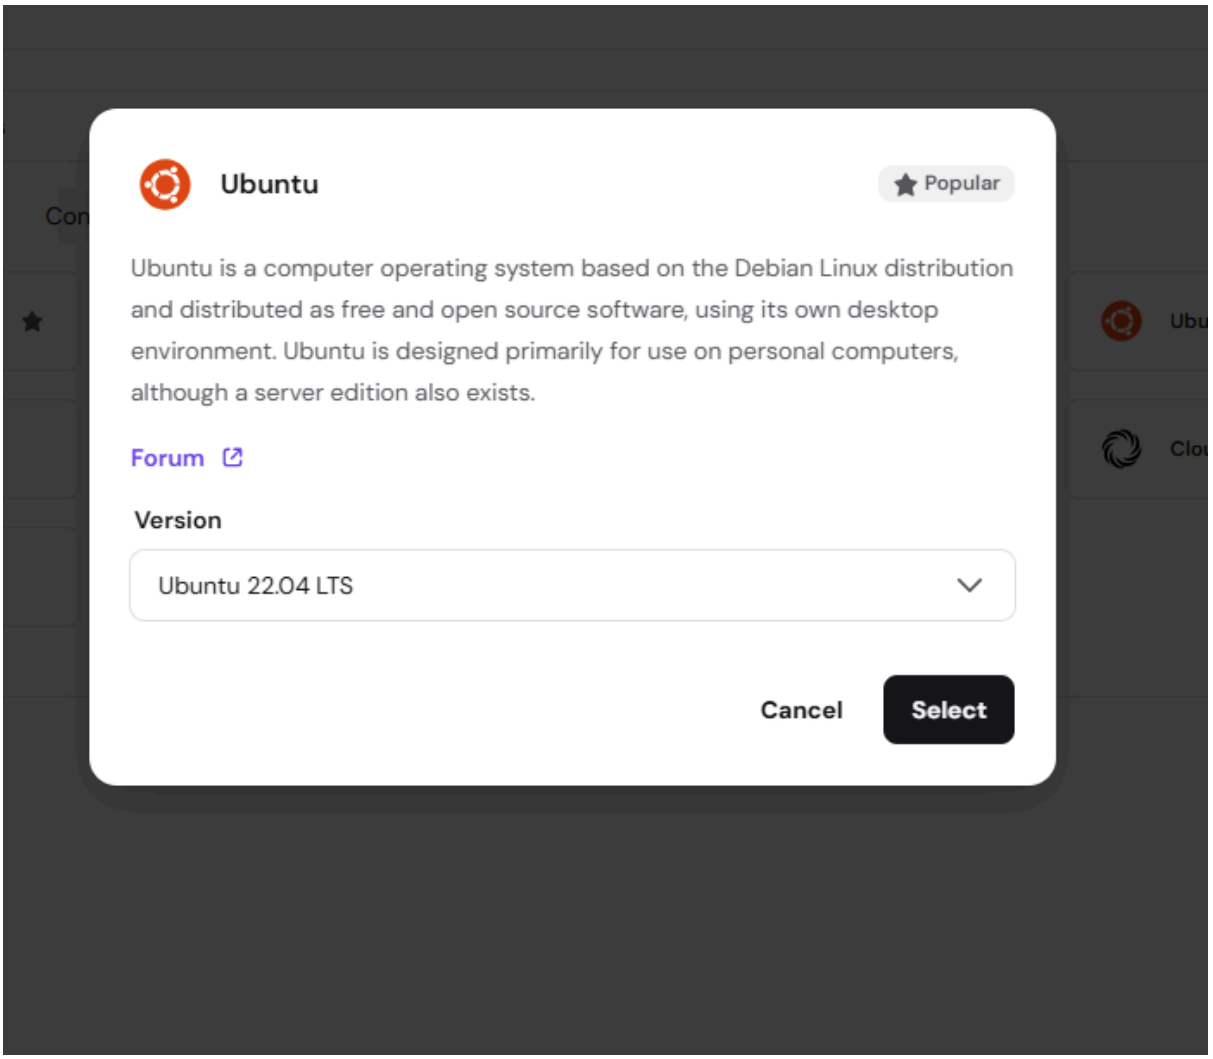

Step 2 : Select Server Location: On the next screen, choose the server location (Recommended: **United States**).

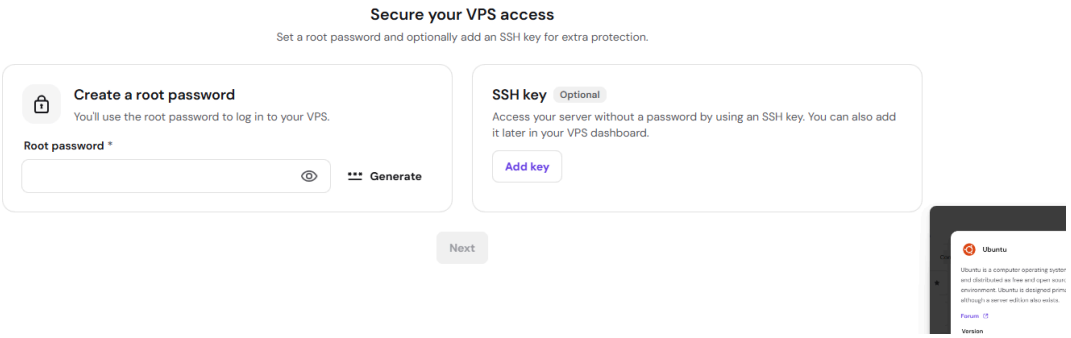

Step 3 : Select OS (Ubuntu): Under the "Plain OS" tab, click on **Ubuntu**.

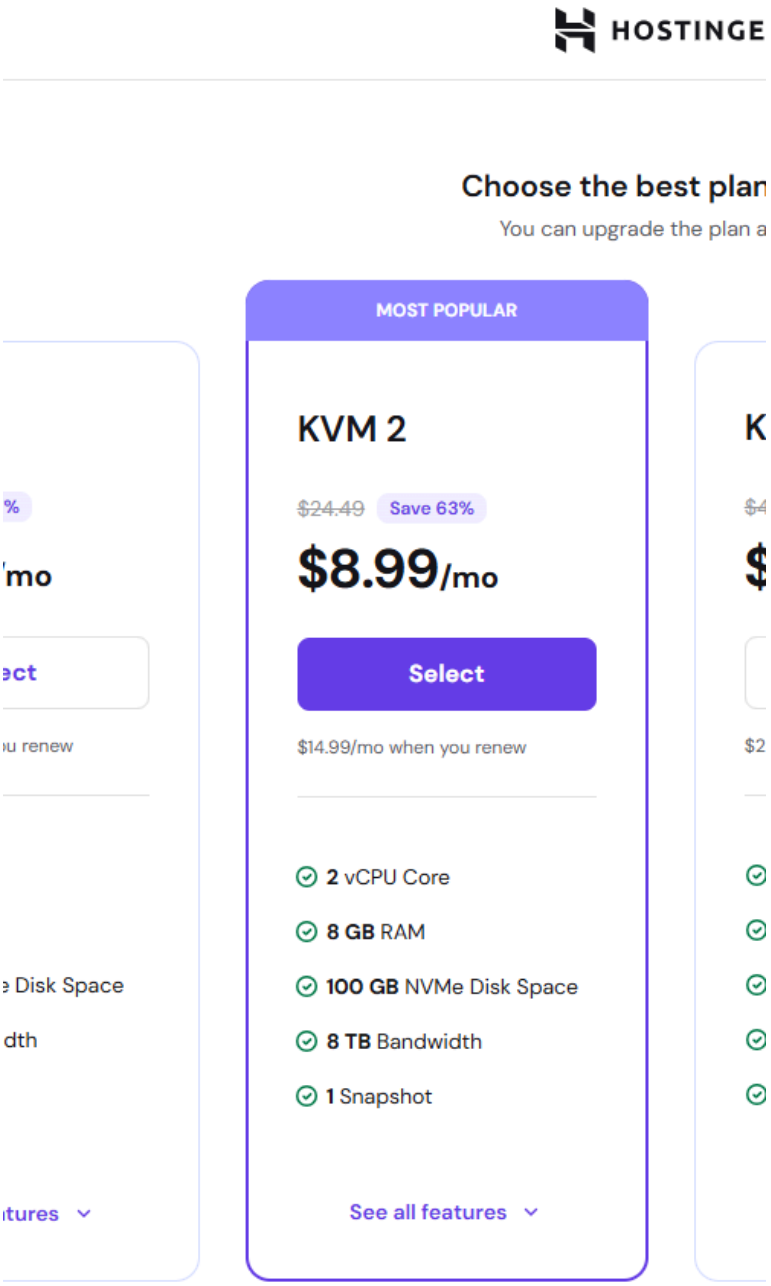

Step 4 : Choose Version: From the dropdown menu, select

Ubuntu 22.04 LTS.

Step 5 : create a root password

Step 6 : **Purchase Plan:** Finally, select and purchase the **KVM 2** plan ($8.99/mo).

Note: If you get stuck at any point or need help with the payment, let me know. And give me some Screen Short

Best regards,

Developer Team
